

Emotion ChooseItMaker Games.

Below are some ChooseItMaker codes which link to differentiated emotion games. Select the appropriate sized board to support your child.

These boards can support your child to recognise emotions.

To access these resources at home you first need to download the ChooseIt! Maker3 app from the relevant app store (iTunes, google play, etc) and then input a code. You should then be able to access this resource. Further instructions can be found on the information sheet on the school web site.

Codes:

Emotion board - 2 options: **AJJVRH**

Emotion board - 4 options: **XHBHWC**

Emotion board - 6 options: **CTQFMX**

Emotion board - 12 options: **KNMKAN**
