

How to make a wormery.

What you need:

1. A 1 litre bottle
2. Soil, compost and sand (only a small quantity of each)
3. Scissors
4. A dark coloured bag (bin liner)
5. Sharp knife

How to make the wormery

1. Cut the top off the bottle using the top as a funnel to put the soil in the bottle. You will need a sharp knife to cut through the bottle.
2. Put in layers of garden soil, compost and sand 2 layers of each. Its ok if they mix.
3. The best bit find the worms. If you cant find any due to dry weather wet the soil through and wait ten mins.
4. Pick 5 to 6 worms and place them on top of you soil.
5. Put a plastic bag loosely over the top of the bottle so its dark.
6. Use a spray bottle to keep the mud moist twice a week.
