Signalong Introductory Workshop

What is Signalong?

Signalong is a key word, sign-supported communication system based on British Sign Language and is used in spoken word order. It uses speech, sign, body language, facial expression and voice tone to reference the link between sign and word.

What the course offers

The workshop is frequently topic based and the emphasis is on the practical application of signing. We cover a brief history, philosophy and methodology of Signalong before teaching approximately 50 key words, but you will learn the necessary skills to read and produce any sign in our range of over 70 manuals. We will also provide activities to put the vocabulary into context i.e. sentence practice, plays etc.

The course consists of 2 afternoon sessions as detailed below—attendance at both is expected.
